Subject: Structural hampering of campus environment & strict prohibition for entry of outsiders

Respected Sir,

Last monday at 7th July, 2025 the beam at our canteen area broke down suddenly causing an injury to one of the staff. For many months we have given many deputations to you on basis of several issues but none of them have been solved. We urge you to kindly look after this matter.

For several years an outsider TMCP leader named Anirup Chakrabarty, who has passed the university in the year 2017 has continuously continuing to enter the campus without any identity levels. Previously a stay order was issued in his name for showing vandalism in the university premises. We request you to kindly look after this matter for the sake of students security.
